October 2009

From the Desk of Director

It is our pleasure to present the Annual Report of Bangladesh National Scientific and Technical Documentation Centre (BANSDOC) for the year 2008-2009. BANSDOC as a premier organization in the area of scientific and technological library, information and documentation, has been entrusted with the responsibility of collecting, processing, storage, management and dissemination of scientific and technological information in the country.

During the reporting period, BANSDOC provided information services to researchers, technologists, planners, policy and decision makers, academicians, students, entrepreneurs and relevant people working in various research and development (R&D) and academic institutions in Bangladesh. This annual report focuses the activities of BANSDOC during the year in view of response from the users.

BANSDOC is trying to provide increased information services to its stakeholders as their needs with limited resources. BANSDOC Library provides Current Awareness Service (CAS) to different R&D and academic organizations to formulate realistic policy, making plans and programmes in their own area of research and development and also in the different area of government's long time planning. Documentation Division procures, manages and disseminates scientific articles from home and abroad according to users request and brings out BANSDOC publications. Bibliographic Division helps the clientele to avail the needful information in their respective fields go through searching the procured CDs and DVDs. The Cyber Centre is going on with full satisfaction of the users adding new cyber facilities.

BANSDOC has entered in the area of Information Super Highway. It has its own website: <http://www.bansdoc.gov.bd>. Anyone can get a complete idea about BANSDOC through this website. The website also provides the library catalogue search facility that gives an idea about BANSDOC Library collection of information materials to the users of different strata.

BANSDOC has commitment to remain responsive to our valued users. We are in the process of modernizing and developing BANSDOC, where use of ICT, introduction of modern management practices and quality consciousness are being re-emphasized. Mobile BANSDOC Library service will start again to provide library information and services to the student community and mass people to create awareness and enhance their knowledge about BANSDOC.

I acknowledge and appreciate the services rendered by the editorial board in preparation, editing and finally bringing out this BANSDOC Annual Report, express my sincere thanks to them for their tireless efforts in this regard. Thanks are due to all my colleagues who worked hand in hand with me during the reviewed period to achieve our goal.

BANSDOC
Dhaka
Bangladesh.

Mijanur Rahman
Director, (Joint Secretary)

Introduction

Bangladesh National Scientific and Technical Documentation Centre (BANSDOC) is the national apex body in the field of scientific and technological library, information and documentation services in Bangladesh. It has already passed 47 glorious years for the benefit of scientific and technological research and experimental development and upholds the socio-economic development of Bangladesh. According to mandatory role and responsibility BANSDOC is dealing with library, documentation and information services, products and systems in the field of science and technology & information and communication technology.

Background

Realizing importance of the potential role that scientific and technological information plays in the socio-economic development of a country, PANSDOC (Pakistan National Scientific and Technical Documentation Centre) was established in 1957 by the Government of Pakistan with the technical assistance from UNESCO. With the view of INSDOC (Indian National Scientific Documentation Centre), PANSDOC was placed under the administrative control of PCSIR (Pakistan Council of Scientific and Industrial Research).

In 1963 a regional office of PANSDOC was established in the then East Regional Laboratories of PCSIR in Dhaka. It was functioning in order to help researchers, academicians, industrialists, technicians and in general, all those who were active in the field of science and technology. This regional office was assigned with the following information services to render:

- Document Procurement and Delivery
- Compilation of Bibliographies
- Document Reproduction and
- Translation Services.

Subsequently in 1971 after liberation war of Bangladesh the regional office of PANSDOC became the national office of Bangladesh renamed as Bangladesh National Scientific and Technical Documentation Centre (BANSDOC) and had been functioning as a unit of Bangladesh Council of Scientific & Industrial Research (BCSIR), Dhaka.

In 1986 the then Science and Technology Division, Ministry of Education, Government of Bangladesh had a project entitled '**National Science Library (NSL)**' which later on was merged with BANSDOC.

The Science & ICT Policy envisages the creation of a 3-tier Science & ICT information services in the country with BANSDOC as the apex organization (1st tier) having 4 sectoral documentation centres at the 2nd tier and the individual institutional libraries and documentation centres at the 3rd tier.

According to this provision, BANSDOC was created in 1987 as an individual national organization and was placed under the administrative control of the then Science and Technology Division of the Ministry of Education and subsequently under the Ministry of Science and Technology (Presently Ministry of Science and Information & Communication Technology) from August 14, 1994.

BANSDOC is a national centre under the Ministry of Science and Information & Communication Technology. BANSDOC's activities are framed under the following categories:

- ✧ Library Services
- ✧ Documentation Services
- ✧ Bibliographic Services
- ✧ Reprographic Services and
- ✧ Cyber Services.

BANSDOC as a multidisciplinary national scientific and technological documentation centre has been providing library, information, documentation, reprographic and cyber services that aims at fulfilling the latest and updated information which are the basic needs of the scientific community, entrepreneurs, planners, policy makers, educationists and administrators in the country from the whole world. Its mandated functionalities and responsibilities are information services delivery and facilitation of information services in the fields of S&T. Both of these information services are essential for research work on information management, services, products and systems and information resources. With the advent of modern information and communication technology as a career of library, information and documentation, the profession here has become career-oriented and complex for the traditional workforces. The Government of Bangladesh has been rendering all-out cooperation to upgrade BANSDOC's status by skilled and trained manpower.

BANSDOC houses the National Science and Technology Library (BANSDOC Library) that acts as a referral centre of major information resources in the country in the fields of Science and technology and ICT. It has the richest collections in science and technology and ICT and a strong reference collection in general science and information and communication technology aspects. It holds about 20000 text and reference books, 442 journals/periodicals titles in the fields of science and technology and ICT. A significant number of these foreign journals/ periodicals has procured in electronic form in CDs and DVDs.

To support its science and technology and ICT services, BANSDOC has an ICT based Cyber Service Centre which is well equipped with the computer and online broadband connected networking facilities to ensure all-out high quality cyber services to its users.

BANSDOC serves closely with its similar counterpart institutions in the countries over the world to bring about global information exchange. BANSDOC is associated with the activities of International Federation for Information and Documentation (FID), International Federation of Library Associations (IFLA), Commonwealth Library Associations (COMLA), SAARC Documentation Centre (SDC), European Patent Office (EPO), European Commission (EC), United Nations Educational Scientific & Cultural Organization (UNESCO), Islamic Educational, Scientific and Cultural Organization (ISESCO) etc.

A team of about 53 personnel comprising scientific, technical and administrative staff is handling the mandated programmes and activities of BANSDOC. Over 14 personnel of the total staff are graduates or post-graduates in the field of science, information science and ICT. Many of them have specialization in library, documentation, information science and ICT.

Aims and Objectives

Bangladesh National Scientific and Technical Documentation Centre (BANSDOC) is the national apex body of science and ICT based information providing organizations in the country. Providing with scientific and technological information to the scientists, technologists, entrepreneurs, academicians, planners, and policy-makers is the mandated functionalities of BANSDOC for the socio-economic upliftment of the country. In this view, BANSDOC has got some activities, which are:

- ★ to procure document and to collect, process, manage and storage data and information on scientific and technological research and experimental development in all fields of science and technology;
- ★ to disseminate such information to researchers, irrespective of their affiliation whether they are engaged in research and experimental development and academic institutions, planning organizations, policy-making bodies or in the nationalized and private sector industries and
- ★ to assist and cooperate researchers in the country to make their contact with researchers of other countries over the world working in the same field of interest.

BANSDOC Website

A website for BANSDOC has been launched to introduce and publicize its programmes, activities and providable existing information services throughout the world. The address of the website is www.bansdoc.gov.bd. Through this website any one belongs from anywhere of the world would be able to know about the programmes, activities and providable existing information services of BANSDOC. At the same time users could easily obtain the information about the BANSDOC Library holdings through the catalogue search, which is already commissioned in the website. Moreover, students, academicians, scientists, technologists, policy & decision makers and entrepreneurs can place their respective document delivery requests to BANSDOC through the link of E-mail, which is added in the web page.

The E-mail Addresses of different Divisions of BANSDOC are as follows:

Sl. No.	Name of Division	E-mail Address
1	Office of the Director	director@bansdoc.gov.bd
2	Office of the Principal Scientific Officer	bansdoc@bansdoc.gov.bd
3	Documentation Division	docu@bansdoc.gov.bd
4	BANSDOC Library	library@bansdoc.gov.bd
5	Bibliographic Division	biblio@bansdoc.gov.bd
6	ICT Division	webmaster@bansdoc.gov.bd

Resources and Services

(a) BANSDOC Cyber Centre:

We live in an era of information, the most valuable commodity, which is available on time on the internet, the most rapid information carrier of present time. BANSDOC with guidance of the Ministry of Science and Information & Communication Technology has provided user friendly well decorated and comfortable working environment in the cyber centre, where one may come and explore the endless possibilities at one's own benefit. The centre has been furnished with the following ICT equipment and have the facilities as mentioned below:

Equipment:

- ✧ Pentium IBM PCs (4 in number);
- ✧ Multimedia CD-ROM Tower;
- ✧ Latest Internet Communication Software;
- ✧ User friendly working environment with use and application of all PCs at a time;
- ✧ Faster access facilities with broadband internet connection and
- ✧ Expert availability to help in access & search the internet and website.

Facilities:

- ✧ Users can exchange e-mails with all other available facilities provided by the internet.
- ✧ Charge for every half-an-hour usage slot is Tk.10.00 and printout charge is Tk.5.00 per page.

During the period 2008-09, BANSDOC has provided Cyber Services to its 37 users.

(b) Documentation Division: Document Procurement and Delivery & Publication Services

Access to information holds a very important key to socio-economic development of a country. This information explosion over the world during last few years has been amazing. Millions of journal/periodical articles are being published every year in various fields of science and technology. Access to these types of information in right time is of paramount importance to the progress of individual institutions and societies as well. Libraries being the storehouses of human knowledge and information cater to the requirements of different branches of knowledge. That's why library, information and documentation centres disseminates information and knowledge in different forms of services.

Access to information holds a very important key to socio-economic development of a country. This information explosion over the world during last few years has been amazing. Millions of journal/periodical articles are being published every year in various fields of science and technology. Access to these types of information in right time is of paramount importance to the progress of individual institutions and societies as well. Libraries being the storehouses of human knowledge and information cater to the requirements of different branches of knowledge. That's why library, information and documentation centres disseminates information and knowledge in different forms of services.

The cost of information resources has been rising tremendously with the increase of volume of information calling for heavy investment in the libraries, information and documentation centres of the country. Consequently the buying capacity of the information providing institutions have been lowering resulting in limited access to information resources. So there is an increased demand for information, which are not available in one's own institution.

BANSDOC since its inception has been providing document copy delivery service with procuring those from similar local and foreign sources. Firstly, it does so from its own library collection. In addition, BANSDOC utilizes resources of a number of science & ICT libraries, information and documentation centres in the country from the National Catalogue of Scientific and Technological Periodical Holdings (STPH) published by BANSDOC. Some of the most important libraries, information and documentation centres in the country delivering only 10% of the total users demand of BANSDOC are: Agricultural Information Centre (AIC) of BARC, Bangladesh National Health Library and Documentation Centre (NHLDC), Bangladesh Institute of Development Studies (BIDS), Bangladesh Atomic Energy Commission (BAEC) and Science Library of the Dhaka University and BUET Library.

If the user requested for document, which is not available in the country, then BANSDOC procures it from its international information sources. BANSDOC has co-operation programmes of activities with a number of renowned international libraries, information and documentation centres over the world and procures documents from them like: National Library of Australia (NLA), The British Library and Document Supply Centre (BLDSC), National Institute of Science Communication and Information Resources (NISCAIR) and European Patent Office (EPO) on payment basis. The payment to the foreign document supplier is made in the form of UNESCO Dollar Coupons. Service charges for document delivery at a very reduced rate are realised from the users whereas the document procurement rate is very costly.

BANSDOC delivers research papers/articles to its users mainly by procurement through placing orders to its counterpart different international libraries, information and documentation centres. To expedite the procurement process, BANSDOC uses e-mail facilities through internet connection, so that the searching for document procurement may be easier and quicker services may be delivered to the users.

The Document Delivery Services offered by BANSDOC during the year 2008-09 is given below in tabular form:

Sl. No.	Organizations Placing Requests	Number of Users	Requests Received from Users	Documents Delivery to Users	Number of Pages
1.	Bangabandhu Sheikh Mujib Medical University (BSMMU)	28	250	164	1075
2	Bangabandhu Sheikh Mujibur Rahman Agricultural University (BSMRAU)	1	1	1	6
3	Bangladesh Agricultural Research Institute (BARI)	1	7	3	9

24	Sir Salimullah Medical College & Hospital	5	39	9	67
	Total	111	1014	525	4194

During the period 2008-09, BANSDOC has procured and delivered 4,329 pages photocopies of documents to its users 570 request from home and abroad.

Document Delivery Services of BANSDOC during Last Five Years:

Description	2004-2005	2005-2006	2006-2007	2007-2008	2008-2009
Request Received	6,093	3,167	2,746	1,627	1,018
Document Delivery	3,774	2,620	1,722	988	525
No. of Pages	37,787	28,653	14,044	11,410	4,194

(c) Bibliographic Division :

Products and Services:

- Delivery of bibliographical references as per requirement of the scientists working in the fields of S&T.
- Scientific contact in the similar field of interest is offered as per request of the scientists
- Delivery of bibliographic data and information on request of the scientists both from home and abroad on S&T topics in which they are interested.

The scientists are interested to know about the research works which has already been done in their fields of interest before starting their research works. This helps them to avoid duplication of research works and thus saving their costs, energy and time. Bibliographies are also prepared by searching CD and DVD form of databases which are available in this Division. Following

international science and ICT information based databases on CD and DVD forms are used for this purpose:

★ **Biological Abstracts on:**

- Agriculture
- Anatomy
- Aerospace Biology
- Bacteriology
- Behavioral Sciences
- Biochemistry
- Bioengineering
- Biophysics
- Biotechnology
- Botany
- Environmental Sciences
- Cell Biology
- Clinical Medicine
- Environmental Biology
- Engineering, Computing and Technology
- Experimental Medicine
- Genetics
- Immunology
- Life Sciences
- Microbiology
- Nutrition
- Occupational Health
- Pathology
- Pharmacology
- Physical, Chemical & Earth Sciences
- Physics
- Physiology
- Public Health
- Radiation Biology
- Systematic Biology
- Toxicology
- Veterinary Science and Zoology.

★ **Physics Abstracts**

★ **Current Contents on:**

- Clinical Medicine;
- Physical, Chemical and Earth Sciences;
- Agriculture, Biology and Environmental Sciences;
- Engineering, Computing and Technology and
- Life Sciences.

During the period 2008-2009 BANSDOC has provided 170 Bibliographic references to its 6 users on request.

(d) Reprographic Division: Products and Services

Users on request may avail themselves of the reprographic services like: photocopying, laminating and spiral binding. They are to pay a very subsidised charges. Occasionally bulk requests are received for photocopying. We have facilities to serve that for BANSDOC has duplo-photocopier machine. This Division provides facility for preparation of scientific photography and slides which are used for conferences/workshops/seminars/symposia's presentation is also available.

Equipment:

- 📄 Computer interfaced Duplo Machine produces 120 copies per minute direct from computer compose;
- 📄 Microfilm and Microfiche Camera;
- 📄 Spiral Binding Machines;
- 📄 Ordinary Camera;
- 📄 Video Camera VHS;
- 📄 Laminating & Dry Machine;
- 📄 35mm Slide Projector;
- 📄 16mm Movie Projector;
- 📄 Overhead Projector with Screen and
- 📄 Black/White & Colour Enlarger.

Products and Services:

- ✳ Plain Paper Copy;
- ✳ Scientific Photography;
- ✳ Slide Making;
- ✳ Overhead Slide;
- ✳ Spiral Binding and
- ✳ Laminating.

During the period 2008-2009 BANSDOC has provided 9,580 pages photocopies, spiral binding 125 Nos. and laminating 45 Nos. of different documents on users request.

(e) BANSDOC Library

In 1980 the then Science and Technology Division, Ministry of Education, Government of Bangladesh had a project entitled '**National Science Library (NSL)**' was merged with BANSDOC effected from 1st July, 1985 with renamed as BANSDOC Library has been functioning as a supplementary library of scientific and technological reading materials used by the scientists, technologists, academicians, entrepreneurs, students and research guides in the country. For this purpose the Library has a National Advisory Committee approved by the Government and according to the instructions and guidance given by this Committee, books, journals, periodicals, serials and other reading materials are procured every year for enhancing the Library holdings.

It may be mentioned that the BANSDOC Library acts as an agency to supplement the resources of all libraries, information and documentation centres in the fields of S&T by

its own selective acquisition method and also to act as the referral centre for maximum utilization of the existing reading materials in the country. Thereby it extends its base of operations as a national library of science and technology in the country.

The selection and collection of books and journals policy of the BANSDOC's Science and ICT Library is to get all important science and ICT publications both local and foreign as far as the fund permits which other libraries, information and documentation centres of the country can not afford or do not able to procure them so that maximization of the funding is ensured and duplication of information resource purchase is avoided. To strengthen its information resource base, BANSDOC has started subscribing for CDs and DVDs or other electronic forms of foreign journals/periodicals as far as possible.

Library information services are further enhanced every year with the addition of newly purchased books and by subscribing new foreign journals and periodicals to its holding. The Library is organized in three sections such as:

- i) Book Section;
- ii) Journal Section and
- iii) Reference Section.

Presently it holds a stock of about 20,000 text and reference books and 442 titles of local and foreign journals, periodicals and serials on different fields of science & Technology and ICT.

Library remains open from 9.00 am to 5.00 pm every Sunday through Thursday except Friday and Saturday and other govt. holidays. The access to Library services are open to all categories of its users. The Library provides readers service only to its users.

A Photostat machine is installed at the disposal of BANSDOC Library to facilitate quick dissemination of information to its users. The Library has been remodeled and renovated keeping in view the national and international requirements of its users. The Library is well equipped with Book, Reference and Journal Sections. Two study carrels has been installed with proper decoration and facilities like computer services for veteran academicians and scientists to carry out study comfortably for their research and development programmes and activities.

(i) Library Services

Presently BANSDOC Library renders the following information services to its all categories in-house and institutional users:

✦ Readers Service :

- Books (Local and Foreign);
- Journals (Foreign and Indigenous);
- Thesis (Local);
- Periodicals (Foreign and Indigenous) and
- Newspapers (National Dailies).

✧ **BANSDOC Mobile Library Service :**

To create awareness and to provide library and information services among the science students

✧ **Photocopy Service:** provided for necessary pages of books and journals as per users requirements.

✧ **Current Awareness Service (CAS):** provided to 170 R&D and academic organizations of the country which are related with science and technology and information & communication technology. The breakup of the 170 organizations made into seven broader groups as follows:

Computer Science and Mathematics	25 Organizations
Earth & Environmental Science	32 Organizations
Agriculture, Botany and Food Science	34 Organizations
Medical Science	12 Organizations
Life Science	20 Organizations
Engineering and Technology	29 Organizations
Physics and Chemistry	18 Organizations

BANSDOC Library delivered them the photocopy of all the content pages of recently procured journals on quarterly basis through Current Awareness Service (CAS).

- ✧ Reference Service
- ✧ Referral Service and
- ✧ SDI Service.

Most of the collections of BANSDOC Library consists on the following Subjects Headings:

BANSDOC holds the following Encyclopedias :

SL. No.	Name of Encyclopaedia
1.	Academic American Encyclopedia
2.	Animal World Encyclopedia
3.	Banglapadia (English and Bengali)
4.	Bibliographical Encyclopedia of Scientists
5.	Britannica Junior Encyclopedia
6.	Children's Britannica
7.	Children's Illustrated Encyclopedia
8.	Collier's Encyclopedia

SL. No.	Name of Encyclopaedia
9.	Complete Handyman do-it-yourself Encyclopedia
10.	Compton's Encyclopedia
11.	Concise Encyclopedia of Bioresource Technology
12.	Concise Encyclopedia of Nature
13.	Concise Encyclopedia of the Sciences
14.	Desktop Encyclopedia of Telecommunications
15.	Encyclopaedia of Environmental Sciences
16.	Encyclopaedia of India
17.	Encyclopaedia of Islam
18.	Encyclopaedia of Seed Production of World Crops
19.	Encyclopedia Americana
20.	Encyclopedia des gaz: Gas Encyclopedia
21.	Encyclopedia International
22.	Encyclopedia of Ecology, Environment and Pollution Control
23.	Encyclopedia of Agricultural Science
24.	Encyclopedia of Agrochemicals
25.	Encyclopedia of Agrochemicals
26.	Encyclopedia of American Forest and Conservation History
27.	Encyclopedia of Atmospheric Sciences
28.	Encyclopedia of Biology
29.	Encyclopedia of Cell Technology
30.	Encyclopedia of Chemical Technology
31.	Encyclopedia of Computer Science
32.	Encyclopedia of Educational Research
33.	Encyclopedia of Endangered Animals
34.	Encyclopedia of Energy
35.	Encyclopedia of Environmental Pollution & Its Control,
36.	Encyclopedia of Folk Medicine
37.	Encyclopedia of Food Microbiology
38.	Encyclopedia of Food Science and Technology
39.	Encyclopedia of Food Science, Food Technology & Nutrition
40.	Encyclopedia of Forest Science
41.	Encyclopedia of Genetics
42.	Encyclopedia of Global Change: Environmental Change and Human Society
43.	Encyclopedia of Grain Science
44.	Encyclopedia of Horticulture
45.	Encyclopedia of Immunology
46.	Encyclopedia of Indian Natural History
47.	Encyclopedia of Inorganic Chemistry
48.	Encyclopedia of Insects and Spiders
49.	Encyclopedia of Library and Information Science
50.	Encyclopedia of Library and Information Technology for 21 st Century
51.	Encyclopedia of Library Automation Systems Analysis
52.	Encyclopedia of Life Science
53.	Encyclopedia of Mammals
54.	Encyclopedia of Modern Everyday Invention
55.	Encyclopedia of Nature & Science
56.	Encyclopedia of Physical Science & Technology
57.	Encyclopedia of Physics
58.	Encyclopedia of Polymer Science and Engineering
59.	Encyclopedia of Quality Management in Hospital & Healthcare Administration
60.	Encyclopedia of Reptiles and Amphibians

SL. No.	Name of Encyclopaedia
61.	Encyclopedia of Science
62.	Encyclopedia of Seed Production of World Crops
63.	Encyclopedia of Software Engineering
64.	Encyclopedia of Supramolecular Chemistry
65.	Encyclopedia of the Animal World
66.	Encyclopedia of the Industrial Revolution in America
67.	Encyclopedia of the World and its People
68.	Encyclopedia of the World's Endangered Languages
69.	Encyclopedia of the World's Nations
70.	Encyclopedia of Toxicology
71.	Encyclopedia of Weather and Climate

BANSDOC Publications

BANSDOC has been bringing out a number of important publications on different topics of interest to the scientists, technologists, academicians, entrepreneurs, planners, policy-makers and decision-makers at the highest level. The publications are:

- Directory of Scientists and Technologists of Bangladesh;
- Bangladesh Science and Technology Abstracts;
- Current Scientific and Technological Research Projects of Bangladesh;
- National Catalogue of Scientific and Technological Periodicals of Bangladesh;
- Directory of Scientists and Technologists of Bangladesh Living Abroad;
- Survey of Research and Development (R&D) Activities in Bangladesh and
- Directory of Bangladesh R&D Organizations and Their Current Scientific and Technological Research Projects.
- BANSDOC Annual Report

Cooperative Programmes of Activities with International Organizations

BANSDOC has been maintaining cooperative programmes of activities with a number of leading regional and international library/information/documentation centers over the world. These are mentioned below in brief:

(a) National Library of Australia (NLA)

At present BANSDOC can meet up only 10% of total requests of its users for document procured from domestic available resources and 90% of them are met with procuring from external resources. BANSDOC can meet up about 60% of the total requests of its users for documents procured from NLA on payment in the form of UNESCO Dollar Coupons. Usually the photocopy of a document up to 30 pages costs Australian \$12.00 only.

(b) National Institute of Science Communication and Information Resources (NISCAIR)

BANSDOC can meet up about 20% of the total requests of its users for documents procured from NISCAIR on payment. Usually the photocopy of a document up to 20 pages costs Indian Rs. 90.00 only.

Under an Exchange Programme undertaken in 1987 between BANSDOC and NISCAIR, the following 10 journals published in India are now being procured by BANSDOC:

- (a) Indian Journal of Chemistry, Section-A;
- (b) Indian Journal of Chemistry, Section-B;
- (c) Indian Journal of Experimental Biology;
- (d) Indian Journal of Radio & Space Physics;
- (e) Indian Journal of Scientific & Industrial Research;
- (f) Indian Journal of Pure & Applied Physics;
- (g) Indian Journal of Biochemistry and Biophysics;
- (h) Indian Journal of Chemical Technology;
- (i) Indian Journal of Marine Science and
- (j) Annals of Library Science & Documentation.

BANSDOC, in turn, has been sending the following 8 journals published in Bangladesh to NISCAIR under the same exchange programme:

- (a) Bangladesh Journal of Biological Sciences;
- (b) Bangladesh Journal of Botany;
- (c) Bangladesh Journal of Agricultural Sciences;
- (d) Bangladesh Journal of Agriculture;
- (e) Bangladesh Journal of Microbiology;
- (f) Bangladesh Journal of Scientific and Industrial Research;
- (g) Bangladesh Medical Journal and
- (h) Journal of Bangladesh Academy of Sciences.

(c) The British Library Document Supply Centre (BLDSC)

BLDSC delivers much documents for our users. BANSDOC also procures photocopies of articles, on user requests, from the BLDSC. Of course, the cost of photocopies of documents procured from the BLDSC is the highest so far. It is about US\$ 10.00 for an article upto 10 pages. An additional US\$ 10.00 is also required for additional 1-10 pages of a document.

The document delivery services of BANSDOC is highly subsidized. It charges only Tk. 10.00 per page photocopy of a full text document from the users. Requests for photocopies of full text documents are generally sent in pre-paid photocopy request forms made in UNESCO Dollar Coupons.

(d) Other Organizations

BANSDOC has also been availing continued assistance and cooperation from many other organizations over the world, namely:

- (a) Pakistan Scientific and Technological Information Centre (PASTIC);
- (b) Institute of Scientific and Technical Information of China (ISTIC);
- (c) National Centre for Science Information Systems (NCSIS), Japan;
- (d) Russian Academy of Sciences (RAS);
- (e) Federation of International Information and Documentation (FID), The Netherlands;
- (f) European Commission (EC), Belgium;
- (g) European Patent Office (EPO), The Netherlands;
- (h) SAARC Documentation Centre (SDC), India;
- (i) UNESCO, France and
- (j) ISESCO, Morocco.

Manpower Status:

Needs for scientific and technological information are abruptly increasing day by day over the world. To meet up the increased needs of different professionals, students, scientists, academicians and entrepreneurs in the fields of science & technology and ICT, BANSDOC does not have required professional, skilled and trained manpower existence. For these reasons BANSDOC does not able to perform its mandated functionalities and responsibilities properly in these areas.

(a) Present Manpower Status in BANSDOC:

The present manpower status in BANSDOC under Revenue setup is shown as follows:

Sl. No.	Categories of Employees	No. of Sanctioned Posts	Existing Employees	No. of Vacant Posts
01	Class-I	10	04	06
02	Class-II	05	03	02

03	Class-III	25	21	04
04	Class-IV	13	09	04
Total:		53	37	16

(b) Summary of Proposed Manpower in BANSDOC:

Posts	Sanctioned	Existing	Proposed
Director General (Renaming of Director)	01	01	01
Director	-	-	04
Deputy Director (Renaming of PSO)	01	01	07
Systems Analyst	-	-	01
Assistant Director	-	-	07
Senior Librarian	-	-	01

BANSDOC’S VISION

- ✧ To perform the present traditional science library of BANSDOC to a digital library with ultimate goal of establishing it as a Virtual Library.
- ✧ Taking initiatives in BANSDOC for training support to other libraries of the country.
- ✧ Organizing seminar/workshop from time to time for modernization, extension and more publicity of existing BANSDOC activities and services.
- ✧ Arranging local and foreign training for the BANSDOC personnel.
- ✧ To launch inter-library cooperation and resource sharing at national level.
- ✧ To introduce library Bar-coding system to ensure the proper use of library reading materials.
- ✧ To arrange BANSDOC visit and focus overall activities, render information services of BANSDOC to the students of school, college and universities who are concerned in the field of Science and Information & Communication Technology.
- ✧ To enable the centre to furnish promptly relevant scientific, technological and industrial data and information to policy-makers and decision-makers for formulation/revision of Science and Information and Communication Technology Policy best suitable for the country in the next 20 years.
- ✧ To establish a children library in BANSDOC.
